

# Results of questionnaires

European Conference of National Strategies for  
Chlamydia Trachomatis and Human Papillomavirus;  
Jurmala, Latvia, May 25-27, 2011

*Auspices*

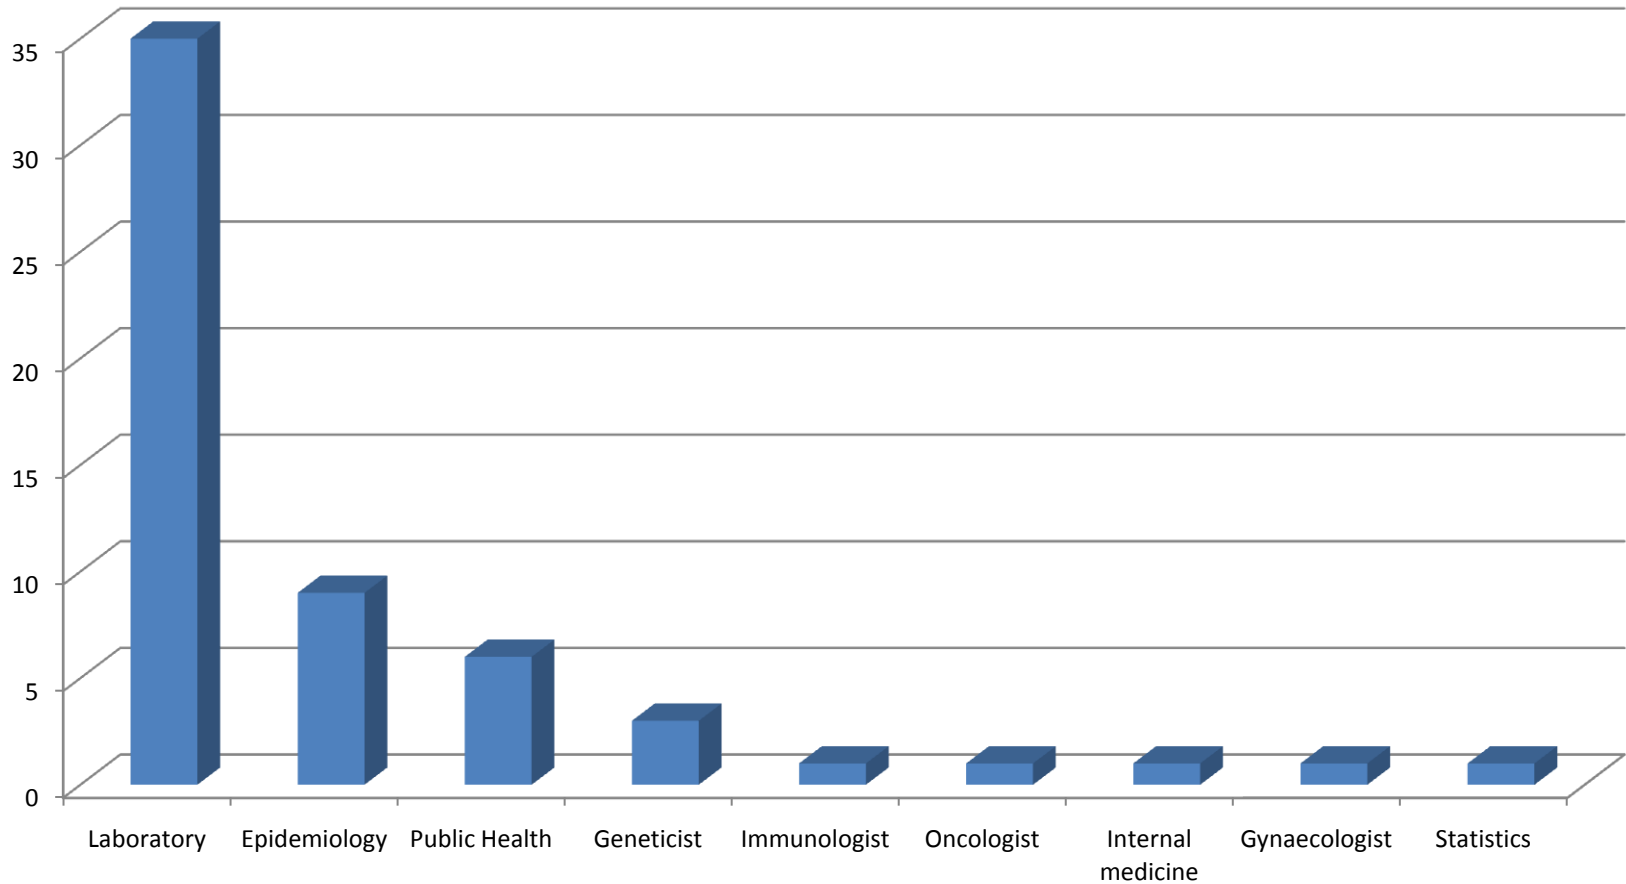

Conference arises from the Project European Conference of National Strategies for Chlamydia Trachomatis and Human Papillomavirus-NSCP which has received funding from the European Union, in the framework of the Public Health Programme

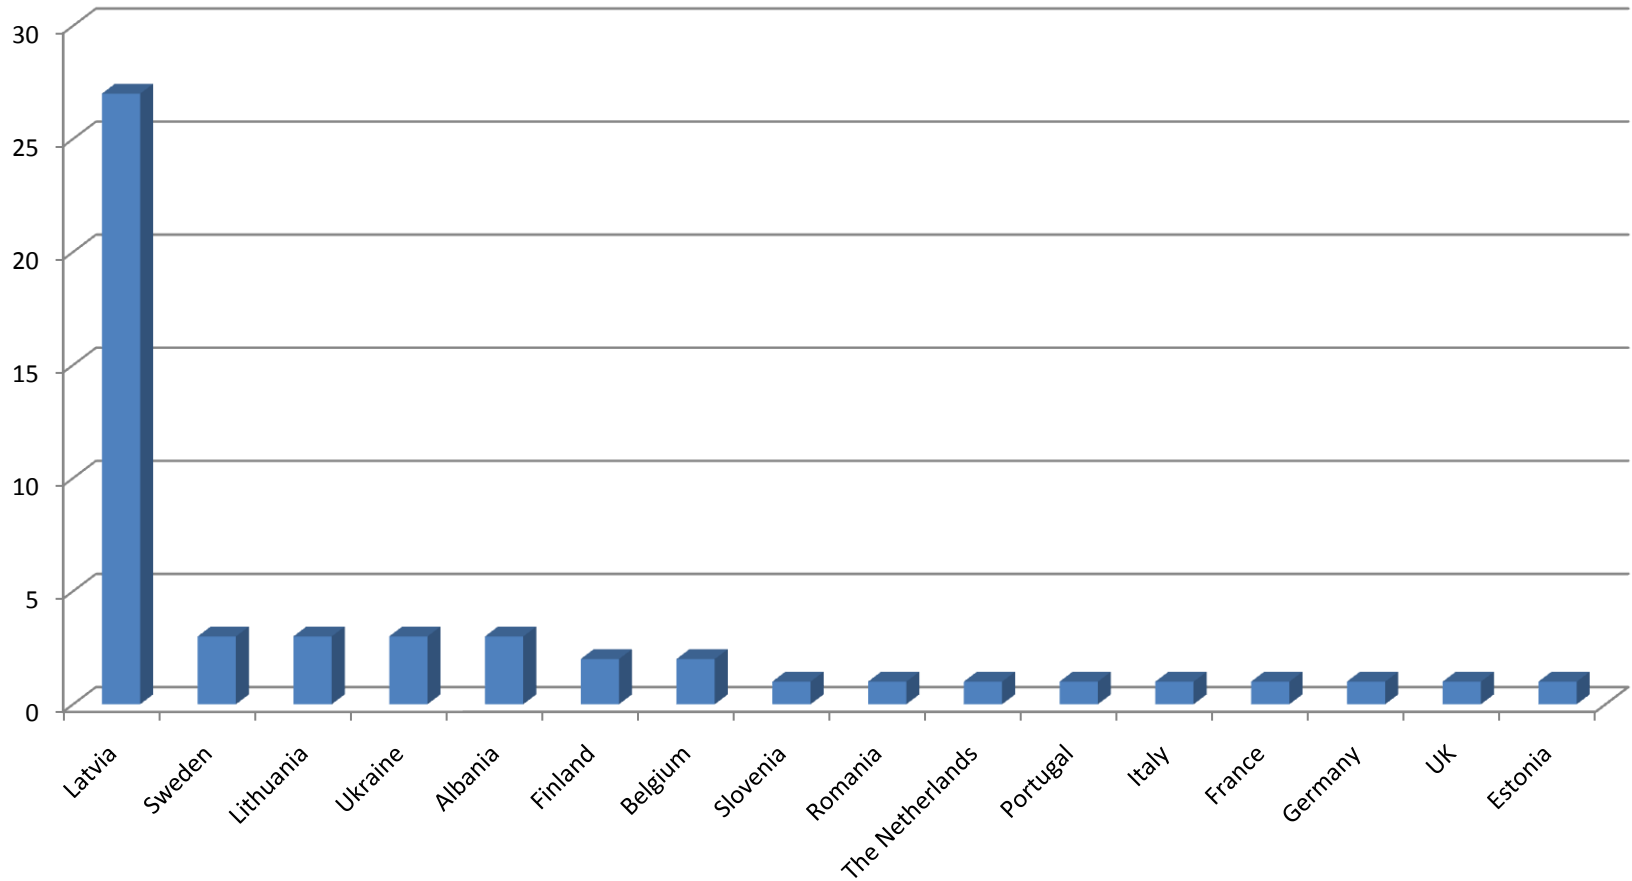

# Summary

Organizers received 58 filled questionnaires from the Conference participants. Majority of respondents highly appreciated scientific level of Conference sessions either relating Chlamydia or HPV, and many guess that Conference will help to develop Chlamydia and HPV screening. Best Conference speakers were Per-Anders Mardh, Max Chernesky, and Magnus Unemo. Almost all agreed that we need to organize the next European Chlamydia and HPV Conference, preferred cities were Tallinn, Stockholm, and Barcelona.
